What is LIFT?

LIFT is an online tool designed by early childhood educators to deliver and manage quality early childhood programs.

LIFT is a secure online system which allows you to be a part of your child’s learning and development. Through sharing observations of your child’s learning, progress, likes and dislikes, commenting on observations and programs and sharing ideas, educators can develop and customise learning programs to extend and challenge your child.
Driving Quality Improvement
Through collaboration and reflection with every person involved in your child’s learning & development

Decades of research from all over the world which demonstrates that from the earliest stages of learning, educator and family collaboration improves long term learning outcomes. This is why the Australian Government has invested heavily in implementation of a new early childhood curriculum: the Early Years Learning Framework; and a new National Quality Standard. While the changes are ambitious and challenging, we aspire to exceed these new standards, delivering the best possible learning outcomes for your child.

“This is why we have chosen an online program to help families get involved”

We understand how difficult it is for busy working families to get involved in their child’s learning, let alone helping the service by getting involved in curriculum and policy development. This is why we have chosen an online program to help families get involved in whatever ways best suit them. Just as the title acronym describes, LIFT supports ‘learning involving families and teachers’ and helps teachers connect with you in everything they do: from orientating your child into care, observing and assessing your child’s learning progress, developing experiences that will support and extend your child’s interests and learning, to engaging you in development of policies and procedures.

SETTING UP YOUR ACCOUNT
To link to your child’s records you must first complete a hard copy permission form. In the permission form, you can grant any number of family members (grand-parents, aunties & uncles etc.) or even specialists access to your child’s records. Please note that teachers cannot accept verbal advice of permission; as a user of LIFT you agree to and accept to abide with LIFT’s terms of use, security and privacy policies which can be accessed at www.raiselearning.com.au/pages/support.

Initially, you will be prompted to set up your account either via:

- an email invitation; OR

In both methods you will be prompted to provide your secure login information and password. Please note that when families receive an invitation directly from the service, approval and access is completed immediately. However, families who register manually need to allow time for educators to approve and link your request to your child’s records.
Viewing Your Child's Portfolio

LIFT can be accessed through the Raise Learning's website. Please choose main menu option "FAMILIES". You will be prompted for a login username and password (the same as you nominated at registration).

LIFT also has a parent app which you can download from the Apple App Store or the Android Google Play Store. To find the LIFT App on the App Store or in Google Play, please type in 'lift' and 'raiselearning' into your search terms OR you can access a direct link from https://www.raiselearning.com.au/pages/family-login.

Forgot Your Password?

If you have forgotten your password, please click on 'reset password' at the bottom of the login form. A 'reset password' link will be automatically sent to your email address and is valid for 2 hours. If you experience any difficulties or need assistance to access your account, please visit LIFT’s support page and log a request for assistance at http://www.raiselearning.com.au/pages/support-request.

Need Help?

You can email support@raiselearning.com.au or submit an online support request at http://www.raiselearning.com.au/pages/support-request.
